WG 11.8

Information Security Education

Introduction

(Strategic issues / questions: Introduction and mission statement)

Working group 11.8 was established in 1991.

Aims / goals (last revised / reconfirmed 08-2018)

(Strategic issues / questions: What does the TC address, what does it want to achieve)

To promote information security education and training at the university level and in government and industry.

Scope (last revised / reconfirmed 08-2018)

(Strategic issues / questions: What are the groups of people the working group focuses on (see list of option in annex c), what are the boundaries of the work area)

The scope of the working group shall be to:

- establish an international resource center for the exchange of information about education and training in information security.
- develop model courses in information security at the university level.
- encourage colleges and universities to include a suitable model course in information security at the graduate and/or undergraduate level in the disciplines of computer science, information systems and public service.
- develop information security modules that can be integrated into a business educational training programme and/or introductory computer courses at the college or university level.
- promote an appropriate module about information security to colleges and universities, industry and government.
- collect, exchange and disseminate information relating to information security courses conducted by private organizations for industry.
- collect and periodically disseminate an annotated bibliography of information security books, feature articles, reports, and other educational media.

The target groups WG 11.8 mainly focuses on are:

Individuals

- Members of IFIP member societies
- Members of non-member societies
- Academic education
- Researchers (in academia)
- Practitioners

Organizations

- IFIP member societies
- Non-member societies
- Government bodies (specification desirable)
- Universities / “technikons” / training institutes
- Commercial companies

Products / activities (last revised / reconfirmed 08-2018)

(Strategic issues / questions: What are the products and activities the working group will deliver (see list of options in annex d))

IFIP conferences:

- Annual working conferences - WISE (World Conference on Information Security Education) (includes proceedings, printed and / or electronically) *[At the 2017 WG11.8 AGM it was requested that the bi-annual conference run annually instead of bi-annually as previously done]*
- Workshops (includes proceedings, printed and / or electronically) on the basis of the SEC conferences.
- Summer and Winter Schools “European Intensive Programme on Information and Communication Systems Security” (IPICS) (includes lectures, printed and / or electronically)

Membership rules (last revised / reconfirmed 08-2018)

(Strategic issues / questions: Membership rules)

Members of the Working Group are expected to be either qualified researchers or practitioners (professors, instructors, assistants and so on) in information security education. Members are nominated by the Chair and subject to IFIP approval.

Members are expected to participate actively in Working Group activities. At a minimum, active participation means presenting a paper or taking an active role in the organization of a meeting at least once every three years (i.e., a three-year period of inactivity is taken to indicate that the member is no longer actively interested in this technical area and can be cause for dropping the member from the roster).

Annex C List of possible target groups

Following is a list of target groups. Selecting the target group(s) should be done by each special interest group, working group, specialist group and technical committee. Each group may wish to focus on a particular (set of) target group(s). The advantage of a focussed approach is better opportunities for marketing, more possibilities for brand loyalty. Selection of target group(s) to a certain extent is linked with the selection of the possible product(s) a group wants to offer. See annex D.

A. Target groups

- A.2.6. Commercial companies
- A.2.7. Non-IT societies (e.g. professional bodies of auditors)

Annex D. List of possible products

Following is a list of possible products. Selecting the product(s) that will be offered should be done by each special interest group, working group, specialist group and technical committee. Each group may wish to focus on a particular (set of) product(s). The advantage of a focussed approach is better opportunities for marketing, more possibilities for brand loyalty. Selection of target group(s) to a certain extent is linked with the selection of the possible product(s) a group wants to offer. See annex C.

Groups are invited to “think out of the box” and look beyond the history. Investigate new challenges and don’t think, at first, about the possible problems.
